

# Renewable energy is coming to the Nyacks!

The villages of **Nyack**, **South Nyack**, and **Upper Nyack** are joining other Rockland communities in a Community Choice Aggregation (CCA) buying group to provide access to low-cost, renewable electricity for all residents.

**Community Choice Aggregation** is a New York State-supported program that allows cities, towns and villages to source energy on behalf of their residents and small businesses.

## Learn more at an Open House Q&A meeting:
